Number 3

Taylor Stake Day
at Temple Monday

Easter Monday, April 2nd will be Taylor Stake Day at the Alberta Temple, and the objective of the Genealogical Committee is for 750 endowments on that day.

The schedule of companies is as follows:

7 a.m.—The two Wards of Magrath, and this company again at 1.

9 a.m.—Raymond 1st and Stirling, and again at 3 p.m.

11 a.m.—Raymond 2nd and Welling, and again at 5 p.m.

With the arrangements made to obtain licenses at the discount on Saturday, it is expected that the license problem will be solved and transportation furnished for all who desire to attend the sessions.

News Notes

Miss Lenore Seville spent the week-end with her parents and family here.

The R.A.A. held an executive meeting in the Town Hall Monday night last.

WANTED—Pup for kids pet. Inquire at Recorder Office.

Mr. and Mrs. S. I. May were business visitors to Lethbridge last Saturday evening.

Geo. Harnston has been under the weather for most of the past week, but is mending slowly now.

The snow storm Wednesday with the sharp north wind behind it was cold, and felt like the last kick of King Winter. We hope it was anyway.

Theodore Ehler and son of Magrath, were here Monday and Tuesday stuccoing the front of the new business block and repairing some of the cement work which was damaged by the frost when it was first put in.

It is expected that the license Bureau in Lethbridge will be the scene of much activity Saturday when motorists will make a rush to get license at the discount rate, in order to use it over the Easter holidays.

The Opera House was crowded for Friday night's game, and more seating was provided than ever before. 900 was the estimated attendance at the game. They were there from all over Southern Alberta.

Playing the Club Class Aces of Medicine Hat in the first of a two-game district playoff for the Intermediate Championship of Southern Alberta, the Idlers piled up a score of 59-21 in the game to easily defeat the Medicine Hat crew. The second game takes place at the 11st March 29th. The boys from the gas city were a fine bunch of fellows and played basketball all the way despite the fact that they were outclassed, especially in checking the Idlers.

An air-flow Chrysler was on display on the garage floor of the Imperial Motors on Saturday, and was the centre of interest all afternoon. Whether interested from a buying standpoint, or not, one should look these stream-lined cars over, to see what drastic changes they are from the conventional type, and to see what we can expect in automobiles in the very near future. Along with economy, speed, comfort and appearance they are constructed with a greater margin of safety than ever before, which is a great consideration.

AN APPLIANCE FOR

EVERY HOME

Operation on a business basis that saves time, money, and labor—that is the striking feature of the Modern kitchen today. It is not only in the big things—the range and the refrigerator—but in the saving lies, but in a score of lesser mechanical devices—the timing is not correct, for instance, the cooking is underdone or overdone. The General Electric Telechron Clock solves the time question. There are no springs and levers to get out of order or to need cleaning and oiling—just a tiny electric motor self-starting and operated by the same alternating current as your electric light. Plug it in, set it, and the time you get is Observatory Time.

In the kitchen too hot or too cold? Try a General Electric Fan—see or hear it heater. Is hot water your problem? General Electric Hot-point water heaters—either circulation or immersion type—will solve it, and you don't have to be eternally running down to the cellar to turn the heater off or on. The controlling switch with pilot light attached, for the circulation type, can be placed in the kitchen or any other convenient place. The immersion type works automatically as required to maintain a full hot water tank.

Is it waffles for breakfast? Here is a Hotpoint waffle iron. Does the family prefer toast? The Hotpoint Toaster. Toaster, takes larger slices of bread, toasts two at the same time, and turns them automatically as the sides are browned. Look at the three-heat radiant grill: It broils, bakes, and toasts, and two other operations may be carried on at the same time. How about coffee? General Electric offers a wide range of percolators—in from five to ten-cup capacity and in plain or particular designs.

WELLING NEWS

Mrs. Floyd Wilde is home again after her recent operation in Lethbridge.

Miss Bertha Bigard has again returned to the St. Michael's hospital for foot treatment.

Returned missionaries, Evans and Parrot from Stirling were speakers on Sunday. Mrs. Carl furnished a piano solo.

Considerable carpenter work has been going on at the church.

The Primary is planning on having a dance for the children on Good Friday.

Mr. Flexhaug and family have moved out on the ridge. Ray Bullock has moved onto the Redd farm where he is employed.

Miss Leah Haws has returned to her home in Barwell after spending several weeks visiting friends and relatives in the district.

The Relief Society put on a 17th of March program and dance. A one act play "Wedding Presents" was given by Mrs. Freda Wilde, Barbara Bullock, Gladys Peterson, Ray and David Bullock, Christian Peterson told why the Irishman wears green. A dance followed the program, music by Tommy Allen and Emma Dahl. A nice lunch was served.

Jacks Win Second
Playoff Game 36-32

Before a cheering, enthusiastic crowd of 900 fans, the Lethbridge Young Liberals and the Raymond Union Jacks met in the second game of the three-game playoff for the championship of the province in Basketball, and treated the crowd to a forty minute display of basketball that for thrills, excitement and uncertainty has had few if any equals in the history of basketball on the local floor.

There was no stopping, nor fooling around at all. Raymond lost it meant that the Provincial Championship, held by the Jacks for three years, would go to Lethbridge, and if the Liberals lost it meant the series was tied up again and another game on a neutral floor would be necessary to decide who would represent Alberta in the Dominion finals. It was Raymond's turn to win, at least that is the way the fans ruled but what a battle to win, and what a calamity for the Liberals to lose. All through the first half the teams battled with never more than two points between them, and the end of the half found the score 15-16, after twenty minutes fast and exciting basketball, Howard opened the scoring.

Technical foul, Liberals one, Jacks one. Officials—Dr. Baden Powell and Jimmy Taylor, both of Calgary.

NOTES ON THE GAME
The Lethbridge team should appreciate the large following of fans who were here to see the game. It certainly shows that their efforts are a prelude.

It would be hard to find two teams more evenly matched than the Jacks and Liberals and whenever they meet, fans can look for a real battle to see who wins.

Frank Shaw should have paid double for his ticket, judging by the enthusiasm he displayed. It would have been worth it to him. He is a real rooter.

Many listened to the broadcast, and nearly tore their hair with excitement to hear it. May be it's a good thing they didn't see it, or it may have been too bad.

Next year we would suggest suspended galleries so that the crowds could be better accommodated. Seating capacity for 900 is not enough yet.

If fans can't refrain from eating their pencils, we would suggest metal ones. It may sharpen their teeth too.

Several local fans were in Shelby on Sunday to watch the Basketball Tournament in which the Jacks participated.

Seeing evidence of the recent earthquake which rocked Salt Lake City and vicinity, Mrs. Maurice Cooper, stated that in one place near Salt Lake, the earth had cracked open about a foot, and that a line let down this fissure sunk to a depth of 100 feet before it stopped. Cracks were reported in several places, similar and smaller than this one.

When the grease boiled over on a hot stove in Lynchburg, Va., at the transient home while the cook was preparing breakfast, 14 of the inmates were killed, and 80 injured, some of them seriously, as flames spread throughout the two storey building, spreading fear and disorder.

The Winniepeg Kiddies, playing Friday and Saturday night, with George Bancroft in "Black Money" promises a program of rare enjoyment. This is the first time in a number of years that outside performers have graced a local stage, and it is to be hoped that the Capital management will receive Liberal patronage for this outstanding event.

News Notes

I. B. Roberts is building an addition to his home in town.

A. H. Zabriskie purchased a new Terraplane six last week, and is getting all the thrills of the proud owner of a new car these days. Stream-lined, especially on the back, it is a splendid looking car, and "Archie" has a right to be proud.

The Winniepeg Kiddies, playing Friday and Saturday night, with George Bancroft in "Black Money" promises a program of rare enjoyment. This is the first time in a number of years that outside performers have graced a local stage, and it is to be hoped that the Capital management will receive Liberal patronage for this outstanding event.

Canadian Utilities Opens
New Store TuesdayFINAL GAME
IN CARDSTON

Friday night at 8:30 on the floor of the Cardston Gymnasium, the Lethbridge Young Liberals and the Raymond Union Jacks will meet for the third and final game of the three-game playoff for the championship of the province in Basketball.

There will be no Resolved seats, and in order to see the game it will be necessary to get there early. We predict a close and exciting game. What is your guess?

Coming to Raymond

THE WORLD FAMOUS STAGE ENTERTAINERS

"THE WINNIEPEG KIDDIES" IN A MUSICAL REVUE "VARIETIES OF 1934"

An attraction of exceptional merit has been booked at the Capitol Raymond for Friday and Saturday March 30th and 31st. When "The Winniepeg Kiddies" World Famous Juvenile Entertainers will be a Stage Attraction in conjunction with a Special Screen Bill of Rare, Breaking records everywhere. "The Winniepeg Kiddies" Come to Raymond with a Wonderful Reputation. Its a stage and Screen Show DeLuxe.

TRI-STAKE FINALS FRIDAY AND SATURDAY

The M.L.A. finals of the three Canadian Stakes will be held in the L.L.S. Hall in Lethbridge on Friday and Saturday next, with W. O. Robinson of Salt Lake City adjudicating in the events.

State winners in the final here last week-end were:

Drama—Stirling Ward.

"M" Men's Speech—Harcourt Mackmore, Raymond 1st.

Gleaser Speech—Miss Betty Rice Jensen, Magrath 1st.

Vanguard Story—Guy Wing, Raymond 1st.

Junior Story—Kathleen Power, Stirling.

Archoy—Howard Hicken, Raymond 2nd.

Vanball—Magrath 2nd Ward team.

These winners will represent the Taylor Stake in the final at Lethbridge.

JACKS PLACE THIRD IN TOURNAMENT

Meeting in a tournament with the outstanding boys of northern Montana on Saturday afternoon and Sunday, the Jacks placed third in the tournament, winning their game from Belton, but losing to Shelby, who strengthened their lineup by a player just out from Minneapolis, who had some new tricks to show the boys.

The teams were treated fine and enjoyed the trip, and the Jacks made a good showing and played good ball to stand third against the class of teams playing there.

The first four were: Shelby, Wolfpoint, Union Jacks and Great Falls.

The games and score follows: Great Falls, Lethbridge game, 42-40 for Great Falls in 5 min. overtime.

Raymond, Shelby game 29-42 for Shelby.

Raymond, Belt Indians, game, 41-27 for Raymond.

The centre of interest right now is the projected opening of the Canadian Utilities office, showroom and service shop in the new O. H. Snow block, next Tuesday, April 3rd, and which will fill a long felt want in the needs of Raymond and district.

R. W. Røstrup, District Superintendent of the Canadian Utilities has been planning and working for this showroom for more than a year past, and numerous trips have been occasioned to Calgary to iron out details, that naturally arise over such a business venture. Most of this week has also been spent there in conference with company officials on the final details of the opening, and the stage is all set now for the official opening next Tuesday.

The Company will handle all their business from this location, and all light bills will be paid there in the future, which will prove an asset to the customers, as any misunderstanding can be immediately straightened out at the time.

On the floor will be displayed a complete line of electrical appliances and fixtures, including the well-known General Electric line of household appliances which are among the best electrical goods offered on the market. The public is invited to inspect these goods, ask questions, and investigate the easy payment plan on which most of them are offered for sale.

A Radio Department will also be one of the features of the store, and a radio expert will care for any trouble brought in, and tubes and other accessories necessary for radio work will be in stock.

Read the ads. of Canadian Utilities and General Electric in this issue of the Recorder, and then make it a point to attend the opening on Tuesday, and see what science is going in the electric field to make life more pleasant and happy for us all.

The Provincial legislature expects to be prorogued about April 7th. Most of the business of the house has been disposed of, and the remaining bills on the order paper, it is believed can be taken care of by that time.

Things must be better, or at least a better feeling exists, or the car business would not be as brisk as it is. It takes money to buy cars, and quite a few seem to be moving, and they are nearly all new ones.

Due to the cold weather and the heavy roads, the attendance at the regular Stake Priesthood meeting on Sunday was rather small. Several of the missionaries who have been in the south-east part of the Stake reported their labors in the meeting.

"The FIRESIDE PHILOSOPHER"
By ALFRED BIGGS

Safety often lies in silence.
True heroes seek no medals.
The heart often fools the head.
Ability rarely descends to tricks.
In deceiving others we deceive ourselves.
Lose your temper and you lose the argument.
Generosity often is merely a bid for popularity.
One is rarely as glad as miserable as he thinks he is.

A CURE OR ONLY A PALLIATIVE?

This is a question that may sound pertinent, but it is a question which should be engaging the minds of our governments, provincial and federal, in respect to our present system of relief, which generally is the same throughout Canada. What is the object in view? Is it to cure the evil, or merely to tide things over until conditions right themselves or a better solution is found. And in the end, who pays, but the already over-tax-common people who try by honest and conscientious effort to pay his taxes, and keep the mill running.

What will be the outcome of our present system of feeding thousands and thousands of people, without demanding anything at all in return from them. Is it right and just that people should be permitted to refuse honest labor in return for their keep and some money besides, simply because they do not like the work, and continue to live on the government without rendering service. Merely eating, reading and sleeping. The efforts at public works have been good, but it has not gone far enough. People are growing up expecting a good living from the government, and they are taking no thought of the future, merely consuming all they can get to satisfy their present appetites, with the assurance in their hearts that if the grocer shut down their credit and the landlord kicks them out, the government will take care of them just as well, and in many cases better, than they have been doing themselves, so why worry?

We would not want to see any one go hungry, nor be deprived of the necessities of life. But we do believe, that every able-bodied man, woman and child should render some service in return for the things they receive. It is unfair in a time when all are feeling the pinch of slim financing to see many living practically on charity, and in a manner that is far too extravagant for decency. Our education is false in regards to relief. People court the idea that it merely requires the signing of a paper to get thousands of dollars for relief, and that is the end of it. They should consider that for every dollar spent to buy them the necessities they get, the government is levying a new tax, or increasing the present taxes somewhere for the means with which to balance the scales, and that somewhere because of their need for help, some person is cutting down on himself or his family, in order to have the extra money to pay

the extra tax which the relief has made necessary.

With the thousands of acres of idle land in our Dominion, it seems that unemployed could at least be asked to produce the grains, vegetables, etc., which may be required to care for them, even if the government had to supply the other items. We maintain that the matter should be considered at least.

IF HOMES WERE RUN LIKE NATIONS

Washington — The Vinson Bill for building up the navy to treaty strength at a cost of possibly \$750,000,000, backed by the Administration, has been passed by the Senate. The estimated national deficit for the year ending June 30, 1934, is \$7,300,000,000 and pensions to federal employees have been reduced as an economy measure.

The Jones Home.—The Blank Motor Company bill for \$750. for a new car similar to the one now driven by the Smith Family, which Mr. Jones has admired, was paid today.—The budget deficit will make it impossible for Junior Jones to have any new shoes this year.

London.—A navel budget of \$66,500,000, an increase of \$2,980,000 over last year's was submitted to Parliament. The 1934 program includes four cruisers in a list of 25 vessels, in addition to small craft. To support the state financial structure the heaviest rate of taxation in the world has been imposed, falling with crushing force on small salaried persons.

The Smith Home.—An expenditure of \$1000 for a new motor car, an increase of \$300 over that spent for the last car, is being considered by the Smith Family this year. The 1934 car will include streamlined knees and built-in rockers. It will be necessary to take the children out of school and dismiss the maid if the family is to make ends meet.

Paris.—A program calling for construction of four naval vessels, including a sister ship to the powerful cruiser Dunkerque, was approved by a committee of the Chamber of Deputies. It is considered likely that the state will have to borrow 20,000,000 francs to finance its undertakings.

The Brown Home.—A plan to buy two cars, including a duplicate of the dashing model which the Jones Family has purchased, was approved by Mrs. Brown today. Unless it is possible to borrow \$2500 from someone, it may be impossible for the family to continue to eat regularly, but Mrs. Brown believes it is important to keep up appearances.

Tokyo.—Admiral Mabe, Minister of Marine, announces that because of the \$750,000,000 Vinson Navy bill, passed by the United States Senate, Japan must build additional warships. The largest peace-time defense appropriation in Japan's history, 938,000,000 yen, recently was voted for 1934-35 by the House of Representatives. Distress among the peasants in the impoverished farming villages in Japan is being relieved by a 30,000,000-yen fund recently set

KEEP Springtime Beauty ALL YEAR 'ROUND

with this marvelous
Olive Oil Face Powder

No one has to tell you what sun and wind will do to your face. A few days' exposure to the elements and you can feel your skin growing dry and rough. You can see it becoming old and shriveled.

But these conditions can be overcome easily by one simple precaution. The daily use of Outdoor Girl Face Powder will help your skin retain its youthful beauty and charm. Outdoor Girl is new. Different. It's the only face powder made with an Olive Oil base. It soothes and softens the skin. Keeps the texture firm and supple. Outdoor Girl is light and fluffy, yet it clings longer than any other powder.

Outdoor Girl comes in 7 smart shades to blend naturally with any complexion. The Good Housekeeping "Seal of Approval" is your guarantee of quality.

Outdoor Girl Face Powder and other Olive Oil Beauty Products are sold by leading drug, department and chain stores in 5 sizes—15c, 25c and \$1.00. If you want to sample free of the most popular Outdoor Girl preparations, mail the coupon below.

OUTDOOR GIRL FACE POWDER

THE RAYMOND PHARMACY

up by a private banking house.

The Green Home.—Mr. Green went shopping today, looking for a new automobile. He said he was determined to find one that would enable him to travel as fast as Mr. Jones, across the street. Mrs. Green left the house early today to ask aid for the family from the Community Relief Fund Headquarters. —Christian Science Monitor.

News Notes

Mr. and Mrs. M. D. Cahoon of Cardston were in Raymond Monday, and spent a few minutes with Merlin's sister, Mrs. Lowell Court.

The wind switched from the south to the north Monday night, and Tuesday, while not very cold, was far from being warm. Everyone is hoping for pleasant weather for the Easter holidays.

Most of the milk retailers of the town have agreed to advance the prices of dairy products in line with prices being paid by the dairies and creameries. Milk will be 16 qts. for \$1, and Cream on a basis of 35c. per quart. Others who are selling milk and cream are asked to adhere to these prices.

It is intimated that a higher income tax will be imposed on incomes of \$3,000 and over, but no announcement will be made until the amendment is brought down. It seems only fair that the ones who have the greatest surplus should contribute the most, instead of making the burden quite so heavy on the ones with incomes of between \$1500 and \$2500.

Agents of the National Sporting Club of London are in Southern Alberta now selecting cowboys and cowgirls to participate in a rodeo in London early in June when they will compete with riders from many other parts. A carload of Stampede horses, and a great many steers are also being purchased to ship to London, England, for this and future rodeos.

What with the growing of 400 or 500 acres of broom corn this year, the erection of a cannery, and the usual beet acreage, farmers of the Taber district are expecting a busy and profitable season. The cannery will use up a big acreage of various kinds of crops, and this will intensify the farming so that returns per acre will be much greater than with wheat and other grains. We congratulate Taber on their bright prospects.

News Notes

FOR SALE—Horses and mules. Apply Dean Larson.

Plan now to attend Preview at Brewertons Capitol Sunday night at 12:01.

School dismissed on Thursday until April 9th. This will give the kiddies quite a holiday.

The sun was shining Thursday morning, but the air was still frosty although prospects looked good for a clear-up.

Most of the Public School had Easter parties in their various rooms Thursday.

The picture of the year Janet Gaynor, Lionel Barrymore in "CAROLINA."

W. W. Rodeback and Harry Fairbanks were busy the first part of the week moving a Jap's house from near Bill's farm to a new location west of town.

Henry Gibb, and others in paid now for cream and butter splendid cinder walk up past the Bud Love place to meet the plank walk at the corner of Mutt Ralph's house. Who's next?

Remember "Carolina" with Janet Gaynor at Preview Sunday night at 12:01.

J. G. Palm and family are going to move into the D. A. Bennett house just north of the Bennett home. Mr. Palm is busy now laying new floors in the house.

Ross Strong has been hauling ashes and gravel to improve the drive way on the east side of his warehouse, which has always been bad in wet weather, his customers will greatly appreciate this addition.

The Idlers won their game from Taber last Thursday night to win the district intermediate championship by a score of 39-44 after the score had been tied several times and Taber leading at half time.

According to reports, The Opera House now belongs to the Raymond First Ward, following considerable negotiations. Lacking authentic information as to details, we will say no more about it at present.

Good Friday and Easter Monday are both holidays, and stores and offices will be closed both days in Raymond at least. Don't forget, and prepare accordingly.

Get your date set for Preview Capitol Sunday night 12:01. Janet Gaynor in "Carolina".

O. R. Knight attended the annual meeting of the Alberta Stampede Association in Calgary last week, and was elected President of the body for the present year. Congratulations to Mr. Knight. The date for our Annual Stampede was set for July 2nd.

Major Douglas, the father of the Social Credit scheme which is attracting so much attention, will be in Edmonton April 6th, to appear before the Agricultural Committee of the House to explain his scheme. No doubt many of his disciples and others interested will be in the Capitol city to hear what is said.

PEARCE — HOWDEN

A quiet wedding was solemnized in the United church on Monday night, March 19, when Miss Marjorie Howden of Calgary, became the bride of Mr. H. J. Pearce, manager of Safeway Stores Ltd., Pincher Creek. They were supported by Mr. and Mrs. Lauchie McLean, Rev. N. W. Whitmore performing the ceremony. They will reside here for the present time and hope to have their honeymoon later in the year.

Congratulations are being extended to Mr. and Mrs. Pearce. Pincher Creek Echo

BETWEEN SEASON DESSERTS

by Barbara B. Brooks
At this time of year, just pe

fore the rush of early spring fruits and vegetables, meal plan ning is often trying.

The foods we see in our cupboards, and oven in the markets, have been with us a long time. We are perhaps tired of eating them and certainly of cooking them.

In homes where dessert is an important part of the meal, the following recipes will do nicely to bridge the gap between the mince pie or plum pudding season and the hey-day of birries and cream and peach short-cake.

Lemon Chiffon Pie is not only a year round standby, but it will compete for honors with the best spring and summer-time treats. In most homes this pie is greeted with enthusiasm and is welcome at least once a week. With cornflakes pastry, it won't mind making it often. The method is a time and labor saver and it is never fail. Corn Flake pastry is wholesome, too, and easily handled by even delicate digestions.

LEMON CHIFFON PIE WITH CORN FLAKE PASTRY
1½ tps. gelatin
¼ cup water
4 eggs, separated
½ cup lemon juice
1 tsp. grated rind of lemon

1 cup sugar
½ tsp. salt
Soak gelatin in water. Cook egg yolks, lemon rind and juice and half the sugar in a double boiler until of a custard consistency. Add gelatin and stir often while cooling in a bowl of ice. Add egg whites beaten with rest of sugar. Pour into Corn Flake Pastry crust and leave in refrigerator at least three hours before serving. Yield: 8-inch pie

CORN FLAKE PASTRY
1 cup corn flake crumbs
¼ cup sugar
½ tsp. cinnamon
¼ cup melted butter
(Roll or grind 4 cups corn flakes to yield 1 cup fine crumbs)

Mix crumbs with sugar, cinnamon and butter. Press the corn flakes pastry firmly into an 8-inch pie tin.
Canned fruits, sometimes monotonous, become more interesting when served with cookies. The spicy flavor and crispness of this cookie make it a perfect accompaniment for bland fruits such as pears, peaches, or Queen Anne cherries. It may be difficult to keep the cookie jar full, but you can roll the dough in wax paper and keep it for day in the refrigerator,

baking the cookies as you need them.

BRAN SPICE COOKIES
1 cup shortening
2 cups sugar
2 eggs
¼ cup milk
3½ cups flour
3 tps. baking powder
1 tsp. salt
2 tps. cinnamon
1 tsp. allspice
1 tsp. vanilla
½ cup seeded raisins
2½ cups bran
Cream the shortening and sugar. Beat in eggs. Add milk. Sift the dry ingredients. Mix well. Roll and store in refrigerator. When needed, slice thin and bake on cookie sheet in hot oven (425F.) about 12 minutes.

Puddings we have always. Here are two versions that are different. They are nourishing, but not so heavy as the truly winter time puddings

CORN FLAKE INDIAN PUDDING
2 eggs, slightly beaten
2 cups milk
½ cup molasses
1½ teaspoon salt
1½ cups corn flakes
1 tbsp. butter
Combine eggs, milk, molasses

and salt in a casserole. Pour corn flakes on top and dot with butter. Set casserole in a pan of hot water to bake in a slow oven (300F) for 2 hours. Serve hot, with cream if desired.
ENGLISH ORANGE PUDDING
½ cup butter
1 cup sugar
2 eggs (well beaten)
1½ cups buttermilk
1 cup bran
2 cups flour
¾ tsp. soda
1 tsp baking powder

(Continued Next Week)
CHEAP FIRST COST NOT ALWAYS ECONOMY

"Thrifty", started a well-known home economist recently, "Is not governed by the ability of an individual to obtain articles or commodities at low prices only. Rather it is the ability of the individual to control expenditures at all times." Continuing her observations she said, "Often times a low first cost does not mean that one is making a thrifty purchase when all costs, servicing and operating expenses mount up." By way of illustrating her remarks she referred to the

question of refrigeration. "Here is a commodity that you must have at your command every day and yet there are few people who really know how much their man-made ice costs them on a daily basis. If they were asked that question they would probably divide the original cost of their equipment by the number of days they had used it and that would be the result. All of which is faulty budgeting."

Such an important investment should be spread out over at least a three year program. To this must be added servicing and parts replacements as well as the quantity of power used. Fortunately indeed, is the purchaser who wisely chooses a refrigeration unit that, even if its initial cost is higher, has little or no servicing expense." General Electric Refrigerators, as though in response to the foregoing analysis, were produced after years of research and actual test to live up to the fact that such refrigeration "costs less to own." Over one and a quarter million three hundred thousand owners testify to its merits, and the economy and thrift of the 4 Year Guarantee is its outstanding endorsement.

Now in Raymond!

GENERAL ELECTRIC

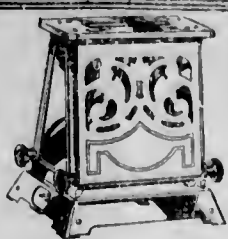

Servants For the Home

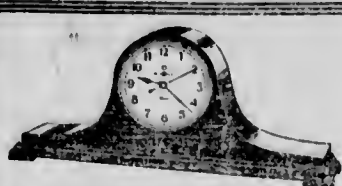

G-E Hotpoint Percolator

Makes perfect coffee, clear, fragrant and delicious, right at the table, by famous "Hotdrip" method. Priced as low as \$9.95.

WHEN YOU'RE HEALTHY
YOU'RE HAPPY!

The blame for "bline" days can be laid often to common constipation. It may bring loss of appetite and energy, sallow and pimply skins, even serious illness. Correct it by eating a delicious cereal.

Research shows Kellogg's ALL-BRAN provides "bulk" and vitamin B to relieve common constipation. Also iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Isn't this better than taking patent medicines—so often harmful?

Two tablespoonfuls of ALL-BRAN daily, relieve most types of constipation. With each meal, in chronic cases.

If not relieved this way, see your doctor. Get the red and green package at your grocer's. Made by Kellogg in London, Ontario.

KEEP ON THE SUNNY SIDE OF LIFE

News Notes

Billy Hawkins was a Cardston visitor on Tuesday.

The first 1934 seeding reported was done in the Taber area on Monday of this week.

Mr and Mrs. S. I. May were in Cardston Tuesday evening visiting with Mr. May's mother who is quite ill.

Tuesday night's Herald carried an announcement to the effect that work would start soon on a salt refinery and distributing plant to be erected in Lethbridge, to improve salt deposits in the Fort McMurray district of Alberta. H. Bossenberry, of Pincher Creek is one of the chief men in the concern.

What About Social
Credit in Canada?

This series is an explanation of the Douglas Social Credit Plan. Mr. Williams, (W.) a Social Credit advocate, is explaining the plan to his friend, Mr. Jones (J.) The scene is Mr. Williams' home, and the conversation takes place during an evening visit.

By following this series to the conclusion the reader will clearly understand the problem which faces Canada.

NUMBER 7

J. You spoke of an error in cost accounting. What is it?

W. "Major Douglas says that the core of the problem is Cost, and it is this part of the of the Social Credit doctrine that is most difficult to grasp. I suppose it is not essential to understand it in order to appreciate the plan for the establishment of prosperity, but it is certain that if I can convince you of the soundness of what we call the A plus B Theorem you will be compelled to admit that no one but Major Douglas has provided a solution."

J. "A plus B Theorem? This is beginning to sound technical."

W. "It is hard to avoid all technicalities, but these letters are used to represent things."

J. "Like X marks the spot, eh?"

W. "Well, at any rate A plus B marks the flaw in the price system. Well, I think we have cleared the decks so let us come to grips with the real problem. To begin with we must understand what comprise Consumer Purchasing Power. If you consider for a moment you will see that personal incomes in the form of wages, salaries, fees and dividends are the only source of Consumer Purchasing Power, and that these incomes consist of money paid out in the first place by Industry. Now an industrial establishment does two things besides producing goods. It distributes Consumer Purchasing Power by means of the wages and salaries paid to the staff, but at the same time it is amassing a pile of costs which will be reflected as prices on its product. Now, Jones, it is not necessary for me to point out that a business must recover all of its costs if it is to remain solvent and that all costs are charged into the prices of its goods. But these costs can be separated into two groups. First there are the wages and salaries of the staff and, second, all other payments such as payment for raw materials, basic charges, power costs, etc. You will note that the second group consists of payments to creditors outside of this factory. The first group are inside costs for they go directly to the staff of that plant. Now here is where we use our letters 'A' and we call all the outside payments 'B'. Therefore the total costs of the firm can be expressed in this form, A plus B. But here is the important point. The amount of money distrib-

ed in this factory is only the amount represented by 'A' which is obviously less than A plus B. Now you can see that 'A' will not purchase A plus B and yet that amount represented by 'A' is all the consumer purchasing power that is accessible for claiming the product of that plant. The rate of flow of prices cannot be less than A plus B but the rate of flow of purchasing power is only 'A' so it is an impossibility for that plant to sell all that it produces unless some part equal at least to 'B' is distributed by some other means."

J. "It is no good. I'm all twisted up. This brings back bitter memories of algebra. Can't you show me in a different way?"

W. "All right, let's try figures. Suppose your factory pay roll is \$500 per week and your costs for raw materials, interest charges, depreciation, etc. are \$800. Now your total costs are \$1300 but you only distribute \$500 to buy goods labelled \$1300. You can see that you cannot sell all your goods unless \$800 is kindly supplied by some other agency. Seeing that every factory and producing organization is in the same position Douglas's statement must be true that 'the wages, salaries, and dividends distributed (as em-

bracing practically all money incomes and therefore the sum of consumer purchasing power) over any given period of time, do not, and can not, buy the product of that period; and the whole of production can only be bought by a draft, and an increasing draft, on the purchasing power distributed in respect to future production, which purchasing power can come from future bank loans and overdrafts."

So you see the trouble. A (\$500) B (\$800). A plus B (\$1300). Five hundred dollars in purchasing power cannot buy goods priced at thirteen hundred dollars."

J. "That's too simple! There's something wrong with that analysis."

W. "Well, what is it? If you can refute it, you're the first one to do so since it was formulated fourteen years ago."

J. "Fourteen years! Why I thought this Douglas plan was just another of these cure-alls produced by this depression."

W. "Yes, so do a lot of people who do not take trouble to investigate anything thoroughly before forming an opinion. But don't sheep away from the A plus B Theorem. You were go-

Notice to Water Users

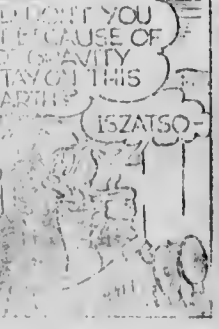

All Water users in Arrears after thirty days from this Notice, will be disconnected from the Service.

Any person found permitting a householder who has been disconnected from the service to obtain water from his premises will be liable to prosecution.

Tenants are requested to call at the Office of the Sec.-Treas. and pay their \$5.00 Deposit on Water, where it has not already been done.

News Notes

Mrs. George Fromm was a business visitor to Calgary last Monday.

Mr. and Mrs. Ernie Organ were in Lethbridge Saturday afternoon.

Solon Low spent the week-end in Lethbridge, where he went to judge the stories and speeches in the Lethbridge Stake M.I.A. tryouts.

SUBSCRIPTIONS—Taken for "Musical Review of Canada". A monthly magazine every music fan will appreciate. \$1.50 per copy at the Recorder Office.

Miss Mae Green is a patient in the Galt Hospital, Lethbridge, having undergone an appendicitis operation early this week.

Lawrence McNaughton of Cardston was a visitor in Raymond on Sunday and Monday last.

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

SAVE THE HEARING

The special senses of sight and hearing are our most precious physical possessions. What we have to say is for the parents of young children as it has to do with action early in life to save hearing for the later years.

In order to save the hearing or to avoid deafness, we must proceed along the sound lines of preventing those conditions which are apt to lead to deafness. A common cause of deafness is infection of the middle ear, which passes from the throat up the eustachian tube connecting the throat and the middle ear. The most common type of such infection is the ordinary head cold.

Colds are more serious in children than in adults. The eustachian tube of the child, as compared to that of the adult, is short, straight and wide. Obviously, this renders infection of the middle ear, via the eustachian tube, much more likely, and so increases the chances of damage to the hearing apparatus which often follows middle ear infection.

Catarrh means a chronic inflammation. A frequent cause of nasal catarrh is the deformity of the septum which divides the nose into two parts. We

are told that the septum is not infrequently put out of its proper place by falls on the face which occur when the child is learning to walk.

A great deal has been written and said about tonsils and adenoids. We do not suggest that all tonsils be removed but when they are found to be diseased, there is no doubt but that they should come out. Adenoids should be removed. The decision as to the need for removal in any particular child should be made by the doctor who examines the child and so knows the actual condition of the nose and throat.

Where adenoids interfere with breathing, or when either tonsils or adenoids are part of a general catarrhal condition of the nose and throat, they play an important part in bringing about loss of hearing. The same may be said of the improperly balanced diet, which causes the stuffed-up nose. In such case, attention to the diet is indicated.

To sum up, we would say that, in order to preserve hearing, it is essential that, during the earlier years of life, attention be given to the prevention of infections, such as the common cold and the ordinary communicable diseases, or, if they do occur, their prompt and proper treatment. Falls and blows on the face should not be neglected, and the diet, tonsils and adenoids should receive consideration. There are other reasons for attending to these conditions, but not the least important has to do with the preservation of the sense of hearing.

Mr. and Mrs. Gray Kirkland returned to Raymond Monday morning after spending the week-end in Magrath with relatives.

I. B. Roberts is spotting a new 1934 model Chevrolet Special Coach purchased from Cadillac Motors. It has the latest action front wheels, and all the latest improvements and is sure a beauty.

R. W. Tollestrup was in Calgary over the week-end on business in connection with the opening of the electric store here next week.
